

Our deacons have scheduled a church work day for **Saturday, September 18th** weather permitting from **9am to 1pm** . We are asking all who are able to participate to join us. Here is the work that needs to be done:

Outdoor Work Tasks:

- Shrubbery & vegetation removal along the fence line at the extreme SW corner of the church property (3-4 people)
- Basic shrubbery, pruning & weed cleanup work in all landscape bed areas around the perimeter of the church and parking lot landscape islands (2-4 people)
- Outdoor storage shed cleanup (1 or 2 people)

Indoor Work Tasks:

- Cleanup & organization of multiple interior rooms of the church.... particularly focused on including removal of unused cardboard boxes & items lying on the floors & corners of rooms which have unfortunately made great habitat for spiders and other insects within our church. Additionally, removal and donation of any lost & found items, unused VBS craft materials / curriculum, unused items in grade school classrooms, etc. would be very helpful. (3-5 people for the above tasks)
- Cleaning of church kitchen & coffee room areas....to include interior shelf cleaning, refrigerator & freezer food removal and clean out as needed, etc. (2 people)

For the church interior cleanup work described above, we have most supplies readily available at the church that we will need. For the outdoor work tasks bring whatever appropriate that might help, e.g., picks, axes, loppers, rakes , shovels, saws, trimmers, etc.

If you have any questions contact me. Many thanks in advance for serving the Lord by helping us be good stewards of our facilities.
